As it seems now more and more complicated to plan the implementation of a real "short-term exchange of students" in France before Xmas, we do agree with you to fix as an official objective of the "e+a" partnership to make together six remotely workshops instead of all the activities which should have been done during the "transnational learning sessions" previously included in our C5 schedule.

All these workshops will be implemented during a local event we call ERAMUS MOB, from the 14th to the 18th of december and we hope both your teachers and students will be able to take part as guests in the online debates or lectures and transnational cooperative works we wish to realize together.

It's really a pity to renounce (due to the pandemic) to concretely implement the C5 mobility. Please all of you to believe that any partner would be welcome if the possibility does exist to come to France when the ERASMUS MOB is organized.

It is necessary to declare now to your N/A what is our common plan for online activities implementation. So your school shall save a part of the funds dedicated to the canceled study travel.

**VIRTUAL MEETING TO BE IMPLEMENTED INSTEAD OF C5 CONCRETE EXCHANGE IF
QUARANTINE IS MAINTAINED FOR ONE OR MORE PARTNERS
AND PROJECT HOLDERS VISIOCONFERENCE**

Bonjour

le conseil d'administration du Lycée Maurice Ravel se réunit ce Jeudi soir pour adopter un fonctionnement pédagogique par demi-groupes en raison de la Pandémie.

Dans ces conditions, nous tacherons de maintenir la mise en oeuvre locale d'une semaine de mobilisation erasmus+ impliquant nos propres élèves, qui aurait lieu soit la deuxième ou la troisième semaine de décembre, en fonction des nouveaux emplois du temps. Dans ce cadre, des ateliers transnationaux seront prévus (virtuels - pour permettre que vous puissiez y participer à distance - ou réels si certains partenaires sont en situation de pouvoir venir en France dans un mois, ce qu'il est impossible de prédire).

Je vous propose de reporter notre visioconférence (prévue initialement ces jours-ci) au Samedi 14 novembre ou à un jour proche de celui-là ; dès que nous serons en mesure de vous communiquer un planning prévisionnel détaillé, je vous l'enverrai par courriel et conviendrai d'un rendez-vous en ligne définitif pour faire le point.

Hello

the High School council meets this Thursday evening to adopt a pedagogical operation by half-groups because of the Pandemic.

In these conditions, we will try to maintain the local implementation of an Erasmus + mobilization week involving our own students, which would take place the second or third week of December, depending on the new timetables. In this context, transnational workshops will be planned (virtual - to allow you to participate remotely - or real if some partners are allowed to come to France next month, which is impossible to predict).

I suggest you postpone our videoconference (scheduled for these days) to Saturday, the 14th of November or a day close to that; as soon as we will be able to communicate a provisional schedule to you, I will send it to you by email and will arrange a final online meeting to take stock.

Find below possible times for setting up our virtual workshops
(it must be assumed that the partners can all connect at the same time) :

MONDAY - Workshop (on line / off line) at 10.30 am or 11.30

TUESDAY - TOUR and/or conferences (on line dissemination)

WEDNESDAY - Workshop (on line / off line) at 8.30 am or 9.30

FRIDAY - Workshop (on line / off line) at 8.30 am (French time) then at 11.00 am

THURSDAY - Workshop (on line /off line) at 10.30 am or 11.30

**IC28 INTERNATIONAL COORDINATION / note n°28 du 13/11/2020
C5 VIRTUAL /or HYBRID EXCHANGE in Saint Jean de Luz
(from the 14th to 18th of december, 2020)**

Please you to consider the schedule we have made in order to implement some cooperative activities in our High School each day of the 5 days ERASMUS MOB event we wish to organize. We think the best time for a real and/or virtual meeting (instead of) C5 is the latest days before Xmas since - according to our Prime Minister - the Quarantaine may be extended in France a little time after the 1st of december. Concrete Workshops would be done with some of you if people can travel to France and if the starting country allow you to join us. If it is not the case, take part to the online Workshops is the only way for you to keep 15% of the « sustain funds » given for R5 by the EU. We believe you can also save 10% of the travel costs transferring its from short term exchange funds to « exceptional needs » budget on Mobility Tool. We are waiting now for your opinion about all the themes we planned to target and a concrete response for each of the workshops : are you able to find some students to cooperate and overcome the challenge for W1, W2 and so on ? Please you to give us some details about the group you will involve, and most important : tells us at what time it is possible to do the visionferences (without moving out from the availability zone). plvanderplancke@gmail.com

ATTENTION : FRENCH HOURS it means 12.00 it is 1.00 PM for Bulgaria and Romania but 11.00 AM for Portugal ! Check if you can find pupils enough to meet the other ones online at the time we'd like to do (and sometimes to prepare the meeting earlier). A good way to process is perhaps for you to select only a few crews to make each task !
